Section D: Complete Annual School Cost Per Member

Information on "complete annual school cost per member" is retrieved from financial data on Annual Reports filed by school districts for the school years 1992-93, 1993-94, 1994-95, and from Budget Reports for 1995-96.*

Complete Annual School Cost (CASC) is defined as the gross cost of the general, special project, debt service and food service funds, plus the net cost of the capital projects fund.**

General Aid Membership is the average of membership on the third Friday in September and the second Friday in January, plus the prior year summer Average Daily Membership (ADM) and foster/group home equivalents. "General aid membership" is used in the computation of state aid and may differ from the number of pupils actually in attendance in a district.***

Per member figures are computed by dividing district cost by aid membership. State share represents district state aid as a percent of CASC. Federal share represents district federal aid as a percent of CASC. Local share represents district local revenue as a percent of CASC.

These figures are intended for general inter-district cost comparisons of gross expenditures, but cannot indicate the extent or quality of the educational program from one district to another. In general, it is expected that higher per-pupil costs can be at least partially attributed to increased educational offerings. The DPI encourages people who want to compare costs to research reasons for cost differentials and include explanatory information in their publications.

If you have questions about Section D or need additional information or clarification, please contact Department of Public Instruction, School Financial Services, P.O. Box 7841, Madison, Wisconsin 53707-7841, (608) 266-2804.

*1995-96 figures should be viewed as estimates only and used with caution, as they are based on budgeted expenditures (not actual) and unaudited membership.

**The Department also produces the *School Performance Report* which includes a per pupil expenditure based on General Operations (Fund 10) costs only. That cost should not be compared to Complete Annual School Cost (CASC).

***Aid membership for districts participating in the inter-district Integration Transfer Program includes all resident pupils. Aid membership for Milwaukee also includes Choice Program pupils attending private schools. An "adjusted" cost table, with pupils counted only in the district of actual attendance, is included in this section.

Section E: Distribution of State Aid Dollars, 1994-95

Information on state aid paid during the 1994-95 school year is retrieved from records of aid payments made by the Department of Public Instruction from July 1, 1994 to June 30, 1995. This section details only aids paid to school districts, Cooperative Educational Service Agencies (CESAs) and County Handicapped Children's Education Boards (CHCEBs). This section does not include aid paid to private schools, public libraries aid systems, county social service agencies and any other agency not specifically listed above. Definitions of terms used in aid program descriptions are provided in Section H (Glossary).

State aid programs can be categorized into two reimbursement types, "formula based" and "grant-in-aid." Formula based aid programs are generally computed from prior year cost and prior year pupil data. These include all the general aid programs and categorical aid programs such as pupil transportation, state tuition, common school fund, driver education, and handicapped education. Reimbursements for "grant-in-aid" programs, where grant awards documents are issued, are usually computed on a current year claim/reimbursement basis.

If you have questions about Section D or need additional information or clarification, please contact Department of Public Instruction, School Financial Services, P.O. Box 7841, Madison, Wisconsin 53707-7841, (608) 266-2804.

Equalization Aid

Equalization aid is state financial assistance which is used to help fund a broad range of school district operational expenditures, as opposed to categorical aid, which must be used for a specific purpose or category of program. General aid for 1994-95 was based on prior year membership, prior year shared costs, and prior year equalized property values (Tax Incremental Financing district increments excluded).

Equalization aid for public elementary and secondary schools is determined under the provisions set forth in the following statutes:

121.004	Definitions
121.07	General provisions; state aid computation
121.08	Payment of state aids; reductions
121.14	State aid for summer classes

The appropriations for the payment of such funds in 1994-95 were found in sec.20.255(2)(ac), Wis. Stats.

Equalization Aid 1994-95 Estimate for Payment Aid formula factors used, in October 1994, to compute 1994-95 equalization aid payments are listed below. These factors and the equalization aid formula are described in detail in Section E, October 1995 Equalization Aid Estimate for 1995-96 Payment.

Type of District	Primary Guarantee	Secondary Guarantee	Primary Ceiling
K-12	357,837	216,457	$5,617
UHS	1,073,511	649,371	5,617
K-8	536,755	324,685	5,617

Equalization Aid 1994-95 Final Eligibility Adjustments for differences between the October estimate and final eligibility are made in the 1995-96 school year. The final aid formula factors for 1994-95 aids are listed below.

Type of District	Primary Guarantee	Secondary Guarantee	Primary Ceiling
K-12	357,856	216,455	$5,617
UHS	1,073,568	649,365	5,617
K-8	536,784	324,682	5,617

Integration Aid

The authorization for state aid to districts for pupil transfers resulting from a plan to reduce racial imbalance (inter- or intra-district) is found in Subchapter 6 of Chapter 121 of the statutes. The integration plan outlined in Subchapter 6 involves transfers of minority (or nonminority) students from a school where at least 30 percent of pupils enrolled are minority (or nonminority) to a school where less than 30 percent of pupils enrolled are minority (or nonminority).

In the case of *intra-district* integration transfers (students transferring within a district), the number of pupils transferred is multiplied by .325. The resulting membership enhancement is multiplied by the district's equalization aid per member to arrive at intra-district integration aid.

In the case of *inter-district* transfers (students transferring between districts), the district of residence continues to count the pupil as 1.0 for equalization aid purposes and the district of attendance is paid state aid amounting to approximately the cost of educating each transferred pupil. As an incentive to participate in the program, 1994-95 inter-district aid was increased by 20 percent if incoming transfer pupils exceeded 5 percent of the district's enrollment.

Special Adjustment Aid

sec.121.105, Wis. Stats., provided additional aid to a school district that received less than 85 percent of state aid in 1994-95 than it received in the previous year. "State aid" in this statute means the sum of payments provided to a school district under sec's. 121.08, 121.10, 121.105, 121.85 and 121.86 (equalization, minimum, special adjustment, and integration aids, respectively).

Minimum Aid

Minimum state aid is defined in sec.121.10, Wis. Stats. Based upon prior year property tax levy rates and median household income (from the 1980 Federal census), each school district was guaranteed a minimum level of aid per pupil. If the school district's equalization aid was below that minimum level, the district was granted the amount of "minimum aid" necessary to bring the district's aid per pupil up to the appropriate level. Categories of

1994-95 minimum aid and the criteria for each are listed below. If a school district qualified under more than one category, the larger amount was granted.

1. $400 per pupil if the district's levy rate exceeds 107 percent of the state average levy rate and median household income does not exceed $25,000.
2. $300 per pupil if the district's median household income is below $15,000 (regardless of levy rate), or if the district's levy rate exceeds the state average levy rate (but not by more than 7 percent) and the median household income is at least $15,000 but does not exceed $25,000.
3. $175 per pupil if the district's levy rate does not exceed the state average levy rate and median household income is at least $15,000 but less than $22,000.
4. $100 per member, regardless of levy rate and median household income, if the district does not meet any of the above criteria.

Handicapped Children Education Aid

There are 11 major areas of state aid to school districts, CHCEBs, and CESAs which provide special programs for children with exceptional educational needs (EEN):

1. early childhood
2. physical or orthopedic disability
3. mental retardation or other developmental disability
4. hearing impairment
5. visual disability
6. speech and language disability
7. emotional disturbance
8. learning disability
9. school age parents
10. homebound instruction
11. alternate delivery system (multicategorical-SNDS)

In addition, the state pays aid on the cost of special transportation, school psychologists, social workers, physical and occupational therapy, and special education directors. Classes for the physically handicapped include treatment and therapy as well as academic curriculum. A plan of service for each special education class must be approved by the Division for Handicapped Children and Pupil Services. The authorization for handicapped aid is found in sec.115.88, Wis. Stats., and the appropriation is listed under sec.20.255(2)(b), Wis. Stats.

The 1994-95 aid reimbursement by the state was based on the prior year's cost of EEN programs provided by school districts, CHCEBs, and CESAs. These costs included the salaries and fringe benefits for certified coordinators, EEN teachers and aides, occupational and physical therapists, psychologists, social workers, and substitutes. The 1994-95 state aid percent, based on 1993-94 cost for psychologists and social workers, was computed at 36.4 and for other staff at 44.9, as the appropriation was insufficient to pay the total statutory aid rates of 63 percent for instruction and51 percent for psychologists and social workers. Aid at 44.9 percent was also paid on the special transportation cost.

In 1994-95, aid for the boarding home cost for nonresident EEN children and the cost of transportation from the boarding home to the classroom was paid at 71.3 percent of 1993-94 cost.

Pupil Transportation Aid

State transportation aids are determined under the provisions of sec.121.58, Wis. Stats. The appropriation for reimbursement of transporting public and nonpublic school pupils is found in sec.20.255(2)(cr), Wis. Stats.

School districts that furnish transportation to and from public and nonpublic schools are entitled to receive state aid at the following rates:

Distance Transported	Regular Year	Summer School
0-2 miles (hazardous area)	$12/pupil	—
2-5 miles	$30/pupil	$4/pupil
5-8 miles	$45/pupil	$6/pupil
8-12 miles	$60/pupil	$6/pupil
12-15 miles	$68/pupil	$6/pupil
15-18 miles	$75/pupil	$6/pupil
over 18 miles	$85/pupil	$6/pupil

Distances are measured from the pupil's residence to the school attended, following the shortest commonly traveled route. Half payment is made for pupils transported less than 91 days (regular year) or 16 days (summer school).

BEST COPY AVAILABLE

Pupil transportation aid in 1994-95 was based on the number of children transported during the 1993-94 school year. The aid for 1994-95 school year was calculated on a total of 550,003 children (501,857 public and 48,146 private) reported as eligible for aid reimbursement. Pupil transportation aid in 1994-95 was prorated at 90.9 percent of eligibility because aid eligibility exceeded the aid appropriation.

School Library Aid

(from the Common School Fund)

The source of authority for the Common School Fund is Article 10 Sections 4 and 5, Wisconsin State Constitution, and s. 43.70, Wis. Stats. The appropriation is found under sec.20.255(2)(s), Wis. Stats. The income from the Common School Fund is distributed on the basis of the total number of children between the ages of 4 and 20 residing in the school district as of June 30 of the year before payments are made. The total number of children so reported in 1994 was 1,178,802. This number was divided into the Common School Fund balance of December 1, 1994 ($15,964,609). This generated a payment of $13.54 per pupil in 1994-95.

Bilingual/Bicultural Aid

A bilingual/bicultural education program is designed to improve the English language comprehension, speaking, reading, and writing abilities of limited-English-speaking pupils, so they will be able to perform ordinary classwork in English. Any school district operating such a program is eligible to receive state aid equal to 63 percent of the approved expenditures attributable to the program or a prorated percentage if aid appropriated is insufficient to cover eligible reimbursable cost. The authorization for the program and aid is established in Subchapter 7 of Chapter 115 of the statutes and the appropriation is listed under sec.20.255(2)(cc), Wis. Stats.

2. The foster or group home is exempted (from property taxation) under sec.70.11.

Driver Education Aid

(from the Highway Fund)

The authorization for driver education aid is found in Subchapter 3 of Chapter 121 of the Wisconsin Statutes. The appropriation is listed in sec.20.255(2)(r), Wis. Stats., in which funds are transferred from the Highway Fund (chauffeur's license fees) to the Department of Public Instruction. These funds are used to encourage school districts to promote effective driver training programs. In 1994-95, school districts received up to $100 for each pupil who successfully completed the classroom and behind-the-wheel phases of the driver education program.

Children At Risk Aid

In 1994-95, sec.118.153(4)(b), Wis. Stats., provided additional state aid in an amount equal to 10 percent of the school district's average per pupil aid provided under equalization, supplemental, integration, and manufacturing value adjustments for each at-risk pupil when a school board's annual report of an approved program for children at risk indicated any three of the following listed conditions existed in the previous school year

1. The school district's average attendance rate for pupils enrolled in the school district's program for children at risk was at least 70 percent.
2. The school district's retention rate for pupils enrolled in the school district's program for children at risk was at least 70 percent.
3. At least 70 percent of the pupils enrolled in the school district's program for children at risk as high school seniors received a high school diploma.
4. At least 70 percent of the pupils enrolled in the school district's program for children at risk received academic credit.
5. The school district's program for children at risk can show significant improvement in reading and mathematics performance for each semester of instruction.

CHCEB General Aid

Section F: October Equalization Aid Estimate for 1995-96 Payment

Wisconsin's 1995-96 two tier equalization aid formula is described in detail in this section. An aid computation example is provided to demonstrate the principles and components of the formula.

The October 1995 estimate of 1995-96 equalization aid by school district follows the general explanation. Aids for 1995-96 are computed from financial data in 1994-95 Annual Reports, membership data in September 1994 and January 1995 Membership Reports, and equalized property valuations certified by the Wisconsin Department of Revenue for calendar year 1994. These aid amounts, modified by 1994-95 final aid eligibility adjustments, are paid to districts during 1995-96. Final 1995-96 aid eligibility, based on audited information, is computed in June 1996 and resulting equalization aid payment adjustments are made in September 1996.

Beginning in 1996-97, equalization aid will be computed under a three tier cost sharing formula. The first tier of the new formula guarantees that every district willl receive some equalization aid on the first $1,000 of shared cost per pupil, regardless of property wealth. For that reason, minimum aid, described in Section E, was repealed for 1996-97.

If you have questions about Section F or need additional information or clarification, please contact the Department of Public Instruction, School Financial Services, P.O. Box 7841, Madison, Wisconsin 53707-7841, (608) 266-2804.

Introduction

The state of Wisconsin and school districts form a partnership to support elementary and secondary public school education. State share of local school costs is dependent upon state general aid appropriations, local per pupil spending, and need as indicated by property wealth per pupil. Sharing of education costs through the general aid formula is described below.

Membership

Sec. 121.004(5) and 121.05(a), Wis. Stats., define "membership" as the average of the number of "full-time equivalency" pupils enrolled on the third Friday of September and the second Friday of January, plus the summer school and foster group home average daily membership equivalent. Memberships from the fall budget report, January membership report, and summer school report for fiscal year 1994-95 were used in the aid computation for 1995-96.

Property Value Equalization

Under the provisions of s. 121.06, Wis. Stats., the Department of Revenue annually determines, on a uniform basis, the property value (called "equalized valuation") of each school district in Wisconsin. The equalized valuations for 1994 were used in computing equalization aid for the 1995-96 school year. The use of "TIF-OUT" valuation, full property value with Tax Incremental Financial district increments excluded, is required by statute.

The local tax base available for the education of each child is determined by dividing the district's equalized valuation by its membership. The resulting equalized valuation per member varies widely among districts offering grades kindergarten through 12, from less than 100,000 to over 1,000,000. Obviously, if the local tax base was the only source of revenue available to the local school district, expenditures for education would vary widely among districts, depending on each district's ability to raise sufficient property tax revenue for school operations.

Guaranteed Valuation per Member

Sec. 121.07(7), Wis. Stats., guarantees a minimum equalized property tax base to support education costs for each pupil. If the district tax base is below that amount, the state general aid formula supplements the local tax base up to the guaranteed tax base level.

Two specific guarantees are provided for in the 1995-96 general aid formula. The primary guarantee supports costs up to the primary ceiling cost per member (described below). The secondary guarantee supports costs above the primary ceiling cost per member.

K-12, UHS, and Elementary District Guarantees

There were 426 school districts in Wisconsin in 1995-96. Of that number, 369 operated kindergarten through Grade 12. Another 10, called union high school (UHS) districts, operated only Grades 9 through 12. The remaining 47 districts, called elementary districts, operated kindergarten through Grade 8 (K-8) and were within the same geographic area served by UHS districts.

Each type of district has a unique guaranteed property value per member. The 1995-96 K-12 primary guarantee is the amount, determined by the department, which distributes the appropriation under sec. 20.255(2)(ac), Wis. Stats., each fiscal year. According to sec. 121.07(7), Wis. Stats., for 1995-96 the K-12 secondary guarantee is equal to 106 percent of the statewide average equalized property value per member rounded to the next lowest dollar. UHS guarantees are 300 percent of K-12 guarantees and K-8 guarantees are 150 percent of K-12 guarantees.

Shared Cost

Sec.121.07(6), Wis. Stats., defined "shared cost" for 1995-96 aids as

> ...the sum of the net cost of the general fund and the net cost of the debt service fund.

Primary Cost Ceiling

The primary cost ceiling for 1995-96 aids was $5,786. By statute, the ceiling is adjusted each year by the urban-CPI rate of the prior calendar year.

Costs below the ceiling (primary costs) receive a greater state share than those above the ceiling (secondary costs).

General Aid Formula Cost Sharing

School districts establish educational programs in response to state and federal requirements and local needs and desires. The level of educational programs varies among districts along with amount of funding needed to support the programs. Shared costs are funded by local property taxes and, on an equalization basis, state general aid.

Suppose, for example, that a district spends below the primary cost ceiling and has an equalized valuation per member that is 55 percent of the state guaranteed valuation per member. Under the equalization principle, the district must raise 55 percent of its shared cost locally. The remaining 45 percent of shared cost is paid by state general aid.

For purposes of providing a more detailed explanation of the general aid formula, this narrative assumes a primary cost ceiling of $5,000 per member, a state K-12 primary guaranteed value per member of $300,000, and a state K-12 secondary guaranteed value per pupil of $180,000.

The following diagram illustrates how the state and the local district each contribute a portion of the guaranteed valuation per pupil and how each assumes a corresponding amount of shared cost. The state K-12 Guaranteed Valuation is $300,000 and the district equalized valuation is $165,000. The difference between the state K-12 Guaranteed Valuation and the district equalized valuation is $135,000, which is the Net Guaranteed Valuation. The Net Guaranteed Valuation is the state's share.

Guaranteed Valuation ($300,000/member)	**Shared Cost** ($5,000/member)

Net Guaranteed Valuation ($135,000/member)	State Share (45%)	General State Aid ($2,250/member)
District Equalized Valuation ($165,000/member)	Local Share (55%)	Local Obligation ($2,750/member)

General Aid Formula

The formula for general state aid is as follows:

$$\text{General State Aid} = \text{Shared Cost} \times \frac{\text{Net Guaranteed Valuation}}{\text{Guaranteed Valuation}}$$

For the example above, this would work as follows:

$$\text{General State Aid} = \$5{,}000/\text{member} \times \frac{\$135{,}000 / \text{member}}{\$300{,}000 / \text{member}}$$

$$= \$5{,}000/\text{member} \times 45\%$$

$$= \$2{,}250/\text{member}$$

Because the ratio of the net guaranteed valuation to the guaranteed valuation can be expressed as a percent, the above formula is often called the "percentage method" of computing aid.

The same computation can be performed in a slightly different fashion.

General State Aid

$$= \frac{\text{Shared Cost}}{\text{Guaranteed Valuation}} \times \text{Net Guaranteed Valuation}$$

$$= \frac{\$\ 5{,}000 / \text{member}}{\$300{,}000 / \text{member}} \times \$135{,}000/\text{member}$$

$$= 0.01666667 \times \$135{,}000/\text{member} = \$2{,}250/\text{member}$$

The number 0.01666667 above is called a "calculation rate." In this example it represents a theoretical "tax" of 0.01666667, or 16.67 mills per dollar of *prior year* equalized valuation. (A mill is 1/1000 of a dollar or 1/10 of a cent.) While either the percentage

method or the rate method of computing state aid will produce the same result, the rate method is specified in state statutes. This rate, used for aid calculation purposes only, is **not** the actual levy rate established by the school district. See Section G for actual school district levy rates as determined from levies certified to the Department of Revenue in 1995 for collection in 1996.

Note that the calculation rate is based solely on the district's spending level (shared cost per member) and the guaranteed valuation. Since the guarantee is the same for all districts of a given type, the only factor in the formula that changes from one district to another is cost per member. The basic principle of equalization is that *districts which spend at the same level per member will tax at the same rate.*

Note that the same calculation rate may be applied to the previously discussed valuations to produce the corresponding amounts of shared costs:

Guaranteed Value	x	Rate	=	Shared Cost
$300,000/member	x	0.01666667	=	$5,000/member
Equalized Value	x	Rate	=	Local Obligation
$165,000/member	x	0.01666667	=	$2,750/member
Net Guaranteed Value	x	Rate	=	General State Aid
$135,000/member	x	0.01666667	=	$2,250/member

The state applies the same rate to its share of the guaranteed valuation as the district applies to its own equalized valuation. The state and districts form a partnership to support education of public elementary and secondary pupils in Wisconsin.

Two Levels of Sharing

State law provides for two levels of state support in 1995-96 and, therefore, two guaranteed valuations—one for "low" costs and one for "high" costs. The $300,000 per pupil mentioned previously in this example is the guaranteed valuation for "low" or primary costs, i.e., that part of the shared cost which falls below the primary cost ceiling. The previous examples use a shared cost of $5,000 per member, which is at the primary cost ceiling assumed in this explanation. In such a case, the district would have only primary shared costs.

"Secondary" costs consist of shared cost above the primary cost ceiling. Thus, a district which had a total shared cost of $5,500 per member would have a primary cost of $5,000 and a secondary cost of $500.

Just as the primary guaranteed valuation per member applies to the primary cost, so the secondary guaranteed valuation per member applies to the secondary cost. For this example, assume a secondary guaranteed valuation of $180,000.

The secondary guarantee is applied in the same way as the primary guarantee; secondary shared cost divided by the secondary guarantee produces the secondary calculation rate. When the secondary rate is applied to the district's equalized valuation, it produces the amount of the local obligation to the secondary cost. For example, if a district had an equalized valuation of $165,000 per member, as in the previous example, but had a shared cost of $5,500 per member, it would have a secondary cost of $500 per member. The state's share of secondary costs (secondary state aid) would then work out as follows:

Secondary Aid

$$= \frac{\text{Secondary Cost}}{\text{Secondary Guarantee}} \times \text{Secondary Net Guaranteed Valuation}$$

$$= \frac{\$ \quad 500 \text{ / member}}{\$180,000 \text{ / member}} \times \$15,000$$

$$= .00277778 \times \$15,000$$

$$= \$42/\text{member}$$

This amount would be in addition to the $2,250 per member in primary aid (on the primary cost of $5,000), as described earlier. Thus, the district would receive a total of $2,292 per member in state aid and would raise the remaining $3,208 per member from its own tax base. The total calculation rate is indicated below.

$$\text{Rate} = \frac{\text{Property Tax}}{\text{Equalized Value}} = \frac{\$\ 3,208\ /\ \text{member}}{\$165,000\ /\ \text{member}} = 0.01944242$$

This is the same value produced by adding together the primary and secondary calculation rates of .01666667 and .00277778 respectively.

Secondary aid, under certain conditions, may reduce or eliminate primary aid to a district. For example, a district with an equalized valuation of $200,000 per member ($20,000 more than the secondary guarantee) and a shared cost of $5,500 per member would have primary aid of $1,833 per member partially reduced by *negative* secondary aid of (–$56 per member), for total aid of $1,777 per member. Note, though, that its total calculation rate will still be the same as other districts with shared cost of $5,500 per member.

Aid Formula "Disequalizers"

The goal of an equalizing aid formula is to eliminate differences in ability to spend while allowing for variation in willingness to spend for education. In a perfectly equalized formula, actual levy rates and "theoretical" or calculation rates would be one and the same. However, not all school costs are shared through the general aid formula in Wisconsin. Categorical aid programs fund costs outside of the aid formula. These programs and other disequalizing factors contribute to differences between the calculation rate and actual equalized tax rates. Some of the disequalizing factors in Wisconsin's general aid formula are: cancellation of negative aids, payment of minimum and special adjustment aids, payment of special transfer aids from the equalization aid appropriation, and use of prior year data (membership, costs, and property value) for aid computation.

Due to the effects of disequalizing factors, aid calculation rates and actual school levy rates differ. Actual levy rates depend upon current year expenditures, revenues, and equalized property values. Actual equalized 1995-96 school district levy rates are found in Section G.

1995-96 Equalization Aid Estimate

School district annual reports were due to be filed by September 1, 1995. Figures for school district expenditures and receipts shown in the following section are from 1994-95 annual reports as compiled for the October 15 aid estimate for 1995-96 payment. Membership figures are based on the September 1994 and January 1995 membership reports filed by school districts. Audits of 1994-95 fiscal and membership data will affect final 1995-96 aid eligibility. Adjustments for differences between 1995-96 aid payment and actual eligibility are made in September, 1996.

Equalized valuations are based on the assessment of January 1, 1994, as certified by the Wisconsin Department of Revenue in May 1995. 1995-96 Equalization Aid Formula Factors

The following factors were used in the October 1995 estimate of general school aid for payment in 1995-96.

Type	Primary Guarantee	Secondary Guarantee	Primary Cost Ceiling
K-12	$406,592	$230,066	$5,786
UHS	1,219,776	690,198	5,786
K-8	609,888	345,099	5,786

Explanation of Column Contents

Total Shared Cost. Total shared cost is the prior year shared cost for the district. Primary, secondary, and total school district shared costs are explained under "Explanation of Line Contents."

Cost/Mem. Cost/Mem, for any given line, is the shared cost on that line divided by the membership on that line.

Equalization Aid. Equalization Aid is the current year aid eligibility. Aid eligibility may differ from actual aid paid due to prior year aid eligibility adjustments. Primary, secondary, zero

adjustment, and total equalization aid are explained under "Explanation of Line Contents."

Aid/Mem. Aid/Mem, for any given line, is the state aid on that line divided by the membership on that line.

CalcRt. CalcRt, for any given line, is the shared cost on that line, minus the state aid on that line, divided by the equalized value on that line, multiplied by 1,000 to produce a "calculation rate" expressed in mills of tax per dollar of equalized valuation. *This figure is used for aid computation purposes only and should not be confused with actual school levy rates.*

Equalized Value. Equalized value is the prior year equalized property valuation of the district. By statute, full property value (Tax Incremental Financial district increments excluded) is used in the aid calculation.

Members. Members is the prior year aid membership for the district. It represents the average of the third Friday in September and the second Friday in January membership counts, plus the summer school and foster group home ADM equivalents.

Val/Mem. Val/Mem, for any given line, is the equalized property valuation on that line divided by the membership on that line. This figure is compared to the primary and secondary state guaranteed valuations per member to determine the district's ability to finance its own shared cost.

Explanation of Line Contents

The first line for each school district includes district name, code number, and type (kindergarten through Grade 12 (K-12)), secondary or union high school (UHS), or elementary (K-8). Also provided are the report used as the source of cost data for the aid computation and the date of the most recent data change.

Primary. Primary cost is the part of shared cost that falls below the primary cost ceiling. Primary aid is equalization aid based on primary costs.

Secondary. Secondary cost is the part of shared cost above the primary cost ceiling. Secondary aid is equalization aid based on secondary costs.

Zero Adjustment. Zero adjustment is an arithmetic means of bringing a negative value for total equalization aid (primary plus secondary) up to zero, as required by statute. The calculation rate shown on this line may also be negative. Cancellation of negative aid reduces the local property tax obligation.

Total. Total cost is the sum of the primary cost and (if any) the secondary costs. Total aid is the sum of the primary aid and (if any) the secondary, and "zero adjustment" aids. Other figures on this line are computed as indicated under "Explanation of Column Contents."

Section H: Equalized School District Levy Rates, 1995-96

This section contains actual 1995 school property taxes levied (for collection in 1996) by each of Wisconsin's 426 school districts. The property tax includes funds levied for general operations, debt service, capital expansion (building), and community services. "Equalized" property value (TIF increments excluded) refers to the real market value as opposed to a value assessed by local authorities which may or may not be at 100 percent of market value. The equalized levy rate is the property tax levy divided by the current year equalized property value. Levy rates, in this section, are expressed in "mills" or property tax dollars levied per $1,000 of equalized property value.

Locally, levy rate may be quoted on the basis of *assessed* valuation. Assessed valuations and rates are not comparable from one municipality to another due to differences in assessment practices and are not used in this publication.

Wisconsin Act 16 implemented *"revenue limits"* beginning with the 1993-94 school year. The revenue limit is the maximum revenue a district may raise through state general aid and property tax for the General, Nonreferendum Debt (authorized after August 12, 1993), Capital Expansion, and Community Service Funds, also referred to as Funds 10, 38, 41, and 80 respectively. The limit is based upon enrollment changes, the Consumer Price Index, and each district's prior year controlled revenue. A district determines the maximum allowable levy for Funds 10, 38, 41, and 80 by subtracting the general aid estimate provided by the department in October from the revenue limit. There are specific exemptions to the revenue limit available upon application to and approval by the Department.

If you have questions about the data in this section, or need additional information or clarification, please contact the Department of Public Instruction, School Financial Services, P. O. Box 7841, Madison, Wisconsin 53707-7841, (608) 266-2804.

Each school district in Wisconsin is in exactly one CESA area. (Also see "IEA.")

Cost—In general, an expenditure for goods (supplies, materials, equipment, land, buildings) or services (salaries, benefits, utilities, professional fees). In determining costs, care must be taken to avoid double-counting. For example, if a school building is financed from borrowed money, the total cost should include either the payment to the building contractor or the repayment of the borrowed money, but not both. Similarly, if a school district spends money for a school lunch program out of the food service fund and also transfers money from the general fund to the food service fund to help pay for the school lunch program, it should not count the transfer as an additional cost. Depending on the grouping being examined, a given expenditure can be a cost in one case but not in another. For example, if one looks at a single school district, payments by that district to other school districts are counted as costs, since they are not otherwise counted by that district. If, however, one looks at the total expenditures for all school districts in the state, it is necessary to subtract the interdistrict transfers, or else the same cost would be reported by two different districts. There are many different ways in which costs can be assembled for various purposes. The following are the ones most often used in Wisconsin school districts:

Complete Annual School Cost (CASC)—The gross cost in any given school year of the general, special-project, debt-service, food-service, and building funds, minus building fund costs paid for through long-term borrowing (which are already recorded in the debt-service fund).

Gross Cost—The sum of all nonduplicative expenditures of a fund or a school district.

Partial Annual School Cost (PASC)—The CASC minus costs paid for by federal aid and local non-tax receipts.

Primary Ceiling Cost—The primary ceiling cost per member multiplied by the district's general aid membership. The primary ceiling cost per member is set by law, usually as part of the state's biennial budget.

School Levy Tax Credit—The school levy tax credit, created in 1985, is a below-the-line property tax relief program; that is, it is shown on the individual property tax bill as a reduction from the gross tax which would otherwise have been paid. The amount of the school levy credit paid to a municipality is based on the municipality's share of a three-year average of the total statewide levy. Each municipality's total credit is divided by the total value of the municipality's taxable property to determine a rate which is applied to the individual tax bill. The school levy credit applies to all taxable property.

There are two commonly used methods of describing property valuation: assessed and equalized. Equalized valuation may either include or exclude a TIF increment. (Also see "appraisal" and "appreciation.")

Assessed Valuation—The property valuation determined by the municipal (city, village, town, or county) assessor as of January 1 in any given year. It is important that property of equal value be assessed at equal amounts, but it is not necessary that the amounts reflect the true sale value of the property. State law requires that total assessments within a municipality be within 10 percent of equalized valuation no less frequently than every five years.

Assessment Ratio—The ratio of assessed to equalized valuation.

Equalized Valuation—The assessed valuation multiplied by an adjustment factor computed by the Wisconsin Department of Revenue for each type of property in each taxing district, designed to cause each type of property to have comparable value regardless of local assessment practices. The objective is to have equalized valuation reflect the fair market value of each piece of

property. (Fair Market Value—The value that would be agreed upon between a willing buyer and a willing seller in an "arm's length" transaction where neither is required to act.)

Tax Incremental Finance (TIF) Increment—The appreciation of equalized valuation of property within a TIF district above the base-level equalized valuation of the TIF district at the time it was created. If a pupil is absent from school without excuse for more than 20 consecutive school days, his or her enrollment is retroactively terminated on the last day of attendance.

- 5-year-old kindergarten program with five full days per week, every week, all year count as 1.0.
- Grades 1 through 12, including EEN, count as 1.0. A full-day is one in which the length of the kindergarten class is the same length as the first graders of the district. First grade pupils must be at least six years old on or prior to September 1 to be counted.

More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same school plant. A school may also consist of pupils in various alternative programs under Statute 118.15(1)(d) and (2) who are grouped together for administrative convenience. There are several methods of classifying schools, of which two will be mentioned here:

(a) by Administration. Generally based on who makes the decisions and pays the bills. These terms are in common use:

Home-Based Private Instruction—A program of educational instruction provided to a child by the child's parent or guardian or by a person designated by the parent or guardian. An instructional program provided to members of more than one family unit does not constitute home-based private instruction. Parochial School—A private school operated by a religious organization or in which religious instruction is offered.

Private School—An institution with a private educational program that meets all of the criteria under Statute 118.165(1) or is determined to be a private school by the state superintendent under Statute 118.167.

Public School—A school operated by publicly elected or appointed school officials, in which the program and activities are under the control of those officials, and which is supported primarily through public funds.

(b) By Grade Level. Based on local and state practice and tradition, but generally separately administered and servicing pupils grouped on the basis of age. These terms are in common use:

Elementary School—(1) A school which generally offers undifferentiated instruction to a self-contained class, usually involving grades no higher than eight. (2) More generally, any nonsecondary school.

High School—Generally a school offering separate classes in different subjects and from which it is possible to graduate with a diploma.

Junior High School—A school between the elementary- and high-school levels, usually offering at least some separate classes in different subjects and usually covering Grades 7, 8 and 9 (in a 6-3-3 plan) or 7 and 8 (in a 6-2-4 plan).

Kindergarten—(1) A class offering learning experiences prior to Grade 1, generally oriented more toward developing basic social and motor skills than cognitive learning. (2) A school comprising only classes no higher than kindergarten.

Middle School—A school with a program designed specifically for the early-adolescent learner, usually beginning with Grade 5 or 6.

Secondary School—A high school or junior high school.

School Board—The governing body of a school district, comprising 3, 5, 7, 9, or 11 publicly elected members. Wisconsin law permits four different methods of election:

(b) He or she runs against all other candidates.
(c) Everybody in the school district may vote for any candidate.
(d) Those elected represent the entire district.

At large by apportioned area.

(a) A candidate must reside in a particular designated area within the district, as determined by a plan of appointment under Statute 120.02(2).
(b) He or she runs against all other candidates from that area.
(c) Everybody in the school district may vote for any candidate.
(d) Those elected represent the entire district.

At large by numbered seat. Statute 120.42(1)(b) requires Madison to use this method.
(a) A candidate may reside anywhere in the district.
(b) He or she runs against all other candidates who have declared they are running for a particular numbered seat, as provided by Statute 120.02(4).
(c) Everybody in the school district may vote for any candidate.
(d) Those elected represent the entire district.

By subdistrict. Statute 119.08 requires Milwaukee to use this method for eight of its nine board seats. The remaining seat is elected at large by district.
(a) A candidate must reside in a particular subdistrict (a designated area within the school district, as determined by Statute 119.08).
(b) He or she runs against all other candidates from that subdistrict.
(c) Only residents of a subdistrict may vote for candidates from that subdistrict.
(d) Those elected represent their subdistricts.

(Also see "pupil count.")

School District—A geographical area established for administering, financing, and determining attendance eligibility for elementary and/or secondary education. (Also see "LEA.") School districts may be categorized in many ways, two of which are of interest here:

(a) By Scope. Based on grades operated. The three permissible categories are pre-kindergarten (PK) to Grade 12 (PI-12), elementary (PK-8, and high school (9-12); the latter two categories share the same territory, with multiple elementary districts for each high-school district.

(b) By Kind. Based on method of governance:

Common—Budget is presented to, and tax levy is voted on, by an annual meeting of citizens, who also have other more rarely used powers; however, the school board may subsequently alter the levy, and it makes most of the operating policy decisions. Covered in Subchapter I of Chapter 120 of the statutes.

Union High—Just like a common district, except it operates only Grades 9-12.

Unified—A structure in which all the duties and powers of the annual meeting are vested in the school board. Covered in Subchapter II of Chapter 120 of the statutes.

First Class—A structure applying only to the Milwaukee School District, which is conterminous with the City of Milwaukee, the state's only first class city, in which some fiscal authority and responsibility of the schools is vested in city officials; however, the school board has final authority to adopt a budget and set a tax levy. Covered in Chapter 119 of the statutes.
